Portfolio: <https://atif544.github.io>

Education

B.Sc. (Engg.) in Information and Communication Technology

Mawlana Bhashani Science and Technology University (MBSTU)

CGPA: 3.73/4.00

Technical Skills

- Languages: C, C++, Python, JavaScript
- Web: HTML, CSS, Bootstrap, JavaScript
- Database: MySQL
- Concepts: Data Structures & Algorithms, OOP, DBMS
- Tools: Git, GitHub, VS Code

Academic Projects

Semester 1 – Online Voting System

- Developed a console-based online voting system using C. Implemented voter registration, vote casting, vote counting, and result generation.

Semester 2 – Operating System Simulator App

- Developed a simulator demonstrating basic operating system concepts such as process scheduling and memory management. Implemented core OS algorithms using Java.

Semester 3 – Fast Speed Typing App & Class Schedule Management System

- Developed a typing speed test application to improve typing accuracy and speed. Built a class schedule management system for organizing courses and class routines using HTML, CSS and JavaScript.

Semester 4 – Online Classroom Resource Sharing System

- Designed and developed a web-based platform for sharing classroom resources among students. Implemented features for uploading, downloading, and managing educational materials.

Semester 5 – University Meal Management System

- Developed a responsive web application using HTML, CSS, Bootstrap, and JavaScript. Implemented the CRUD operations along with meal access, real-time data.

Semester 6 – Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML, CSS, Bootstrap, and JavaScript. Showcased education, technical skills, academic projects, and integrated an EmailJS contact form for direct communication.

Semester 7 & Semester 8 – Final Year Thesis (Ongoing)

- Final Year Thesis (Topic to be finalized). Will focus on solving a real-world problem using modern software technologies (e.g Machine Learning)

Achievements

- Solved programming problems on Codeforces.
- Active GitHub contributor with multiple academic projects.
- Built several web and programming projects throughout undergraduate studies.

Why Should You Hire Me?

- Strong academic foundation in Information and Communication Technology.
- Practical experience developing projects across multiple semesters.
- Passionate about software development and continuous improvement.
- Excellent teamwork, communication, and adaptability.
